ARE YOU READY FOR SEEDING ?

Low priced seeds are again being widely offered. Noticing an especially low priced advertisement in several farm papers, we ordered small quantities of alfalfa, red clover, and hybrid seed corn. When it came in, the alfalfa carried a test tag showing purity 94.56%, inert 2.12%, weeds 1.94%, other crop 1.38%; germination 61.00%, hard seed 10.00%. The red clover was about the same quality showing a purity test of 95.73%, inert 0.90%, weeds 0.95%, other crop 2.42%; germination 68.00%, hard 8.00%.

The seed looked as you might expect; not only was it weedy and low germinating, but also small, blasted and shriveled, and off in color. The hybrid corn contained several sizes and kinds mixed together and listed only as medium maturing. This again supports our last month's statement that we have never seen low priced seed but that something was wrong with it. In the long run you'll find thoroughly cleaned high quality seed the most economical to sow.

Seed Oats - The old time standbys and the most widely recommended new varieties are offered. The Columbias are early, high yielding and still popular. The Viclands and Tamas are 2 to 4 days later than Columbias, disease resistant, but not quite as tall as Columbias. Waynes are popular as a medium maturing variety, white in color, have good straw length and are used in northern oats producing areas.

Clovers - Alfalfa - Red clover, mammoth, alsike and sweet are in sufficient supply to meet demands. Alfalfa is less plentiful with strictly northern grown seed very scarce. For prompt handling of orders a first and second choice should be made and orders kept to actual spring needs. Use some of other legumes whenever possible.

Meadow Mixtures - These contain high quality seed mixed according to Experiment Station recommendations. They are convenient to use, ready to sow and offered for three different types of soil conditions.

Hybrid Corn - Soybeans - Many orders for corn are now being shipped, although grasses, legumes and seed grains get the preference. Soybeans will soon be ready to ship. We again suggest early ordering of all farm seeds.

Early Korean Lespedeza 19604 - This strain has been tried for several years with good results. It is about two weeks earlier and adapted to areas farther north than Korean. As it grows bigger than Common Korean in the central and northern section of the corn belt states, it has proven superior to other strains for these localities.

Lawn Seed - Farm homes always look more attractive with nice lawns. Most lawns will need a little repair and reseeding this spring. Velvaturf is a balanced mixture of quality lawn grasses ideal for this purpose. It can be sent parcel post or with orders for field seeds.

A Farm Bulletin "New Comers in Field Seeds" is enclosed. Hope you will enjoy it.

Very truly yours

O M SCOTT & SONS CO

Seed Price List

February 20, 1945

"SCOTT'S" grade is the highest quality seed available. It is carefully selected and thoroughly re-cleaned. Noxious weed free. May contain 0.10% to 0.15% other crop seed and in most cases will test 99.75% pure.

SPECIALS: The grades marked "Special" may be slightly off in appearance or contain one or two percent of other clovers or crop seed. This seed is clean and perfectly safe to sow.

Price Ceiling Regulations on Alfalfa, Clovers and Timothy are in effect under Revised M. P. R. 471. If any quotations on these seeds are above prices permitted by ceilings, adjustments will be made. All prices subject to prompt acceptances.

RED AND ALSIKE

Scotts Medium Red.....	\$27.25 bu.
Certified Midland.....	31.50 bu.
Certified Cumberland.....	31.50 bu.
Scotts Mammoth.....	27.25 bu.
Special Mammoth.....	26.10 bu.
Scotts Alsike.....	25.50 bu.
Special Alsike.....	23.75 bu.
Crimson Clover.....	.19 lb.
Hubam (Annual Sweet).....	30 lb.

SWEET CLOVER

Scotts Yellow Blossom.....	\$12.50 bu.
Scotts White Blossom Type.....	12.50 bu.

OTHER CLOVERS

Ladino.....	\$2.60 lb.
Ladino with 50% Alsike.....	1.30 lb.
Louisiana White.....	.90 lb.
White Dutch.....	.85 lb.
Wild White (Approved).....	1.25 lb.
Birdsfoot Trefoil.....	1.85 lb.

ALFALFA

U. S. Verified Origin

Scotts Oklahoma.....	27.00 bu.
Scotts Kansas.....	29.25 bu.
Scotts Colorado.....	29.50 bu.
Scotts Utah.....	29.50 bu.

LESPEDEZA

Scotts Korean—Unhulled.....	\$13.00 cwt.
Scotts Korean—Hulled.....	17.50 cwt.
Korean 19604 (Early).....	21.00 cwt.
Scotts Scricca—Hulled.....	35.00 cwt.

½ ounce treats one bushel	

MEADOW MIXTURES

Seed 12-16 lbs. per acre
For high lime soils

Scotts Alfalfa Mixture.....	\$38.00 cwt.
Alfalfa 7 lbs., Red Clover 4 lbs., Timothy 4 lbs.	
For medium lime soils	
Scotts Red Clover Mixture.....	\$33.00 cwt.
Red 6 lbs., Alfalfa 2 lbs., Alsike 2 lbs., Timothy 5 lbs.	
Where soil is acid or drainage is poor	
Scotts Red Clover, Alsike.....	\$31.00 cwt.
Red 6 lbs., Alsike 3 lbs., Redtop 2 lbs., Timothy 4 lbs.	

PASTURE GRASSES

Kentucky Bluegrass (<i>Fancy</i>).....	\$34.00 cwt.
Canada Bluegrass.....	38.00 cwt.
Redtop (<i>Fancy</i>).....	22.00 cwt.
Orchard Grass.....	41.00 cwt.
Reed Canary Grass.....	45.00 cwt.
Meadow Fescue.....	33.00 cwt.

PASTURE MIXTURE.....\$32.50 cwt.

A balanced mixture of two-thirds grasses and one-third clovers by weight for establishing high-productive permanent pastures, or for reseeding old pastures. Contains Kentucky bluegrass, redtop, timothy, ryegrass, orchard grass, Louisiana white clover, red and alsike clovers, and alfalfa.

Sow 20 to 25 pounds per acre for a new seeding and about half that amount for reseeding an old pasture.

TIMOTHY

Scotts Timothy.....	\$4.50 bu.
Special Timothy.....	4.35 bu.

RYEGRASS

Ryegrass (Annual).....	\$14.00 cwt.
Ryegrass (Perennial).....	23.00 cwt.

Always inoculate legumes

Buckwheat.....	\$ 6.00 cwt.
Hairy Vetch.....	18.00 cwt.
Dwarf Essex Rape.....	21.00 cwt.

SUNDRY SEED

German Millet.....	\$4.00 bu.
Black Amber Cane (50 lbs.).....	4.25 bu.
90 to 100 days from planting to silage stage	
Orange Cane (50 lbs.).....	4.00 bu.
110 to 120 days from planting to silage stage	
Atlas Sorgo (50 lbs.).....	3.75 bu.
115 to 125 days from planting to silage stage	
SUDAN GRASS.....	\$11.00 cwt.

SEED OATS AND BARLEY

Tama and Vicland are two new varieties of oats. They are smut and rust resistant, high in test weight, stiff strawed, high yielding, particularly superior when rust is severe, and about 2 days later than Columbia in maturity. All seed grains are treated excepting the uncertified Vicland.

	1 to 20 bu.	Over 20 bu.
Vicland (from Certified Seed).....	\$1.70 bu.	\$1.65 bu.
Tama (from Certified Seed).....	1.85 bu.	1.80 bu.
Columbia (Early).....	1.60 bu.	1.55 bu.
Wayne (Medium) (Certified).....	1.80 bu.	1.75 bu.

BARLEY (Wis. 38—Smooth)..... 2.40 bu. 2.35 bu.

VELVATURF LAWN SEED..... 5 lbs. \$2.25

SOYBEANS

Richland (Early) (Certified).....	\$3.35 bu.
Richland (Early).....	3.10 bu.
Mingo (Medium Early).....	3.25 bu.
Manchu (Medium).....	3.00 bu.
Black Kingwa Type (50% Yellow).....	3.20 bu.
Lincoln (Medium Early) (Certified).....	3.50 bu.
Lincoln—A new variety high in content and quality of oil. Medium straw stiffness. Orders limited to 10 bushels.	
Bansei (Edible).....	15c lb.; \$7.50 bu.

SWEET CORN

Certified Golden Cross Bantam.....	\$.55 lb.
Certified Ohiogold No. 1.....	.70 lb.
Stowell's Evergreen.....	.35 lb.
POP CORN (South American Yellow).....	.25 lb.

TREATED HYBRID SEED CORN

Scotts Hybrid Corn has been graded for width, length and thickness and will plant easily and accurately in any make of planter. It is treated for protection against disease. The round kernels are graded uniformly and will yield just as well as the flats but special plates are usually required for accurate planting. These plates are available for most standard planters.

EARLY MATURING HYBRIDS

	Round Grade	Flat Grade
Ohio M 15.....	\$5.75 bu.	\$8.25 bu.
Ohio M 34.....	5.75 bu.	8.25 bu.
Ohio K 24.....	5.75 bu.	8.25 bu.
Ohio K 35.....	5.75 bu.	8.25 bu.

MEDIUM MATURING HYBRIDS

	Round Grade	Flat Grade
Iowa 939	\$5.25 bu.	\$8.25 bu.
Ohio W 17.....	5.25 bu.	8.25 bu.
Ohio W 36.....	5.75 bu.	8.25 bu.
Ind. 610		8.25 bu.

MEDIUM LATE HYBRIDS

	Round Grade	Flat Grade
Ohio C 38.....	\$5.75 bu.	\$8.25 bu.
Iowa 4059	5.75 bu.	8.25 bu.
U. S. 44.....		8.25 bu.
U. S. 13	5.75 bu.	8.25 bu.

Ky. 203—White Hybrid, later than U. S. 13. Flat Kernels \$9.00 bu.

MEDIUM SMALL FLATS—\$7.00 per bu. The first size smaller than medium flats. Regraded for length and width to remove all short and small kernels, and to insure accurate planting. Economical to use as will plant 2 to 3 acres more per bushel than other grades.

THICK FLATS—\$7.00 per bu. These are 1/64 of an inch thicker than the standard grade medium and large flats. In most planters, the same plates as are used for the regular flats will give uniform and accurate planting.

ROUNDS—Only medium and large rounds are offered. Due to the dry weather, pollination in our crossing fields wasn't as complete as in past years resulting in a higher percentage of round kernels. Quotations have been made accordingly.

SCOTT HYBRIDS—While reports on the performance of these Hybrids have been quite favorable, yet because of the past unusual season, we suggest these be used on a trial basis.

Flat Kernels - - - \$4.50 per half bu.; \$2.25 per peck

Round Kernels - - - \$3.50 per half bu.; \$1.75 per peck

Scotts 22—Reported higher yielding than M Hybrids. Same maturity. More drought resistant. Fodder remains green, uniform, ears husk easily.

Scotts 66—Just a shade earlier than Iowa 939. Drought, blight and stalk rot resistant; strong rooted and high yielding. An easy husking, promising medium maturing Hybrid.

Scotts 99—The same maturity as U. S. 13. Dark green, resistant to disease, slightly higher yielding. Tendency for two good ears per stalk.
